

Overview	Title	Notes
TSI SR 003 392 V2.1.1 (2016-02)	Cloud Standards	Overview of current standards landscape
Security		
ISO2700 (inc 27018)	Control objectives for security in cloud environments	
NIST 800-53	Security and Privacy Controls for Federal Information Systems and Organizations	
CSA CCM 3.01		
NIST SP 800-144	Guidelines on Security and Privacy in Public Cloud Computing	
NSCS Cloud Security Collection	https://www.ncsc.gov.uk/guidance/cloud-security-collection	Various resources on cloud security
Metrics		
ISO/IEC 19086-1,2,3		
DMTF CIMI Model	https://www.dmtf.org/standards/cloud	
NIST 500-307	Cloud Computing Service Metrics Description	
Profiles and service models		
IEEE P2301 Working Group (Cloud Profiles)		
NIST SP 500-292	NIST Cloud Computing Reference Architecture	
ISO17788	Cloud computing -- Overview and vocabulary	
ISO17789	Cloud computing - Reference architecture	
Interoperability		
ISO/IEC 19941:2017		
ODCA Interop Across Clouds Guide Rev 1.0 - ODCA Interop	Interop Across Clouds Guide Rev 1.0	Describes proposed requirements for interoperability, portability to support moving workloads across clouds.

Various standards currently in development by ISO/IEC JTC 1 SC 38 are indicated in grey.
